

Upgrading Jethro Manager

To upgrade Jethro Manager:

1. **Sign in as root.**
2. Run the command:

```
RPM -Uivh <jethro-manager-rpm>
```

For example:

```
rpm -Uivh jethromng-1.1.0-104d.x86_64.rpm
```

After the upgrade process was completed, all open sessions of Jethro Manager on browsers must be manually refreshed (F5).
