

DROP CUBES

Drops all existing cubes.

Syntax

```
DROP CUBES ;
```

A more specific command, can be used for dropping of a specific single existing cube:

Syntax

```
DROP CUBE BY KEY <cube-key> ;
```

Description

Once dropped, cubes cannot be recovered and must be re-created.

To get the <cube-key>, run:

```
SHOW CUBES
```

Example

```
DROP CUBE BY KEY cube-293288122b5c2fe91fd0c53711fbf8f4c7a8d2fdbaabf40c932c2cb636a7722e-1;
```
